

ACPF Series

Conveying Vacuum Generator

AIRBEST

BIOPHARMING

FOOD

PACKAGING

Features

- Straight-through design, extremely large vacuum flow
- Different diameters are available, the largest diameter is 38mm

Advantages

- Handling of workpieces with high permeability, particle, powder, gas and fluid

Applications

- Handling of loose materials such as textile and paper
- Conveying of grains such as wheat and corn
- Conveying of powder particles such as laundry detergent and plastic particles
- Removal of cutter chips during machining
- Suction of non-corrosive waste water and waste gas during industrial processing

Structure

- Straight-through design, can adsorb and transport different materials continuously
- With mounting threaded hole
- The ports of ACPF3-3 are threaded connection, and the others are connected by external steel wire hoses
